About Me

As a skilled and detail-oriented web developer, I am adept at designing and implementing engaging websites that enhance user experience. With experience in front-end and back-end development, I have a strong command of HTML, CSS, JavaScript, PHP, and other programming languages. My ability to think creatively and problemsolve under pressure make me an asset to any team.

Job Experience

Company Name: Evodynamics

- Developed multiple websites from scratch using HTML, CSS, and JavaScript, PHP, Mysql, Ajax.
- Collaborated closely with instructors to design and develop user interfaces (UI) for various projects.
- Conducted detailed analysis of existing websites, providing valuable feedback for usability and performance improvement
- Provided comprehensive web development training to interns, equipping them with hands-on skills in HTML, CSS, JavaScript, and backend technologies to foster their growth and proficiency in the field.
